LUXURY SMART WEARABLE

SEAS by

Welcome to SEAS, where luxury meets sustainability through cutting-edge RFID technology. We craft experiences that resonate with elegance and responsibility, merging the natural beauty of wood and stone with modern sophistication. Our wristbands are functional, stylish, and eco-conscious, embodying our commitment to both luxury and sustainability.

WoodenZen

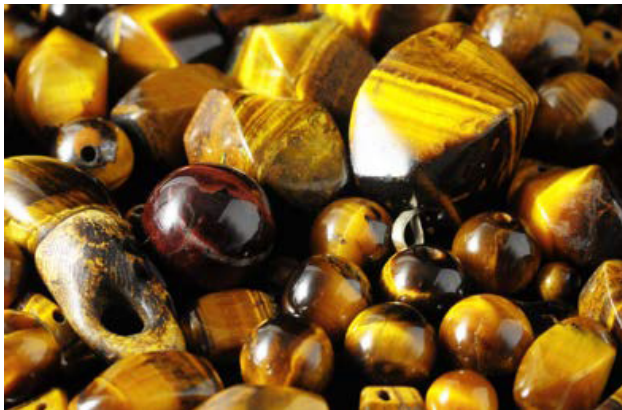

SEAS

Discover our exquisite collection of wood materials for crafting the perfect RFID wristband. Choose from the rich, warm tones of sapele, the classic elegance of walnut, the light and airy appeal of beech, or the sleek finish of birch. For a sustainable option, consider the natural beauty of bamboo. Each type of wood offers its own unique aesthetic and energy, allowing you to create a wristband that not only enhances your experience but also resonates with your personal style and Zen.

StoneZen

SEAS

Discover our exquisite collection of materials for crafting the perfect RFID wristband. Choose from the striking beauty of tiger eye, the calming hues of turquoise, or the raw elegance of lava stone. For those seeking a touch of mystique, consider moonstone or the unique patterns of shoushan stone. To create a wristband that not only enhances your experience but also resonates with your personal style and Zen.
